### **Who are we?**

L'Association des Personnes Handicapées Matawinie was founded in 1978. Its mission is to advocate for the rights and defend the interests of the disabled and their loved ones, irrespective of their limitations.

### **What do we do?**

- Offer support to those searching for services
- Organize recreational and developmental day activities
- Sit on committees who examine life experiences of the disabled
- Help members integrate into the community
- And so much more...

In short, we stop at nothing to improve the quality of life of disabled people living in the Matawinie RCM. We accomplish this work in collaboration with community organizations and resources within the public network.
